

WOODLANDS
DAIRY

WE ARE
WOODLANDS

THINK ABOUT JOINING

and becoming part of the team responsible for
PROVIDING MILLIONS OF SOUTH AFRICANS WITH
GREAT DAIRY PRODUCTS

Woodlands Dairy (Pty) Ltd is the manufacturer of First Choice dairy products and co-packer for other global blue chip companies. Since its inception in 1995, Woodlands has become one of the leading role players in the South African dairy industry. Whilst its products can be found throughout the country, the production plant is situated in Humansdorp, just 15 minutes from Jeffrey's Bay and a 40 minute drive from Port Elizabeth, right in the heart of the Eastern Cape's thriving dairy region. Joining us will provide you with an opportunity to be a part of our drive to be the most admired dairy company in Africa.

Applications from highly motivated individuals are sought for the following position:

Senior Process Technician / Technician

Key Performance Areas: The successful candidate will report to the Process Engineer and will be accountable for both preventative and breakdown maintenance, assist the Process Engineer with respect to projects and continuous improvement and will be responsible for the development of subordinates within the department as well as the provision of technical support to the Cadbury powder plant when required.

Knowledge and Skills: The successful candidate will have a suitable qualification such as electrician or instrumentation tech with sound knowledge of PLC's, 2-5 years previous maintenance experience gained in a similar position, ideally in a food and beverages environment, along with a strong desire and capability to empower people. While the job holder will be working in a highly automated environment the position will require an individual with strong mechanical ability. This position will require standby duty and overtime.

Woodlands Dairy is an equal opportunity employer subscribing to the principles of employment equity.
